

EMPOWER YOUR AGENCY'S MODERN WORKFORCE

Within the next four years, more than 42% of the global workforce will be mobile¹. Is your agency prepared? At Iron Bow Technologies, we help you support today's changing workplace and enable your users to securely work when, where and however they need.

BETTER TOGETHER

By partnering with HP, Intel and Microsoft, we provide sleek, do-it-all devices that help your agency securely meet the demands of today's varying workstyles.

HP — **INTEL** — **MICROSOFT** — **IRON BOW**

HP
HP tablets, laptops and workstations bring simple design, integrated security and collaboration features together to allow users to work how they want to

INTEL
Intel Core Processors maximize efficiency to enable devices with a thin, compact profile that don't compromise battery life or overall performance

MICROSOFT
Microsoft Windows 10 provides a consistent user experience, familiar apps and built-in features to keep your work secure and always available

IRON BOW
Our trusted partnerships with these companies, engineering expertise and years of experience in the public sector is what truly brings it all together

HOW ARE OTHER AGENCIES BENEFITTING?

Powered by the latest Intel processors and running on Microsoft's best ever operating system, HP devices are trusted in the public sector and offer your agency numerous benefits.

Sleek designs
that support mobility, as well as the needs of diverse workspaces and modern workstyles

Built-in security
such as intrusion protection and facial/fingerprint recognition to better meet federal requirements

Improved collaboration
through crystal-clear sound, touch screen functionality and Office 365 apps

Simplified management
so IT can more securely manage digital diversity and personal device preferences

THE VALUE OF A PARTNER LIKE IRON BOW

Our solutions from HP, Intel and Microsoft enable us to bridge your technology gaps. Through custom mobility and workspace solutions, we help you support your modern workforce.

STRONG.

3+ decades of experience in the public sector enables us to deploy solutions right, the first time
